

VOLUNTEER WEEK

JUNE 9-14, 2019 | GREEN LAKE BIBLE CAMP

We are excited to welcome congregational groups, families, and individuals for a week of service at Green Lake Bible Camp and Shores of St. Andrew. In conjunction with our properties staff and construction professionals, we are eager to take on high impact projects that will immediately benefit the ministry potential of our sites. All you need is a good attitude and willingness to serve and we will provide the projects and materials, housing and meals, and certainly a big serving of FUN! Come for the whole week or just a few days... Whatever you can offer will make a BIG difference!

Projects may include: shingling, painting, tree trimming, gardening, landscape restoration, basic construction, bunkbed making, shelter remodeling, canoe rack building, and so much more!

Do you have a **special skill or area of professional expertise?** We would love to get in touch with you as we plan for the week. In particular we are looking for skid loader operators, electricians, residential and commercial contractors, and chain saw operators.

All skill levels are welcome!

The week certainly won't be all work!

- Experience one of the most beautiful lakes in Minnesota and all that it has to offer - swimming, paddle boarding, pontoon rides, and more!
- Volunteers will enjoy evening activity options including campfires, worships, outings to local attractions, games, and a BBQ Banquet Bash to close out the week!

Visit our website at www.gllm.org for more details about this great week of service and to register. Contact the office at (320)796-2181 with questions!
