DAY 1: CALLED TO LOVE

PAPER TUBES HEART GARLAND

Materials:

- Paper tubes (old paper towel or toilet paper tubes)
- Scissors
- Markers/crayons
- Stapler

Instructions:

- Fold your paper tubes in half, length ways, and cut into strips - you should end up with a bunch of similarly sized circle cutouts

- Cut each circle so they make long strips and decorate each strip with markers/crayons

- When all strips are decorated, you are ready to start making your garland! For the first heart, simply fold the two sides of the strip in together, to form a heart, and staple.
- Follow a similar procedure for each additional heart, making sure to loop each new strip into the garland strand that is forming.
