

GLLM Protocols | Stay Safe MN

GLLM Retreat Spaces (Medayto Lodge, The Loft & Lemon Tree, and The Cottages at Shores of St. Andrew)

Updated March 15, 2021

Green Lake Lutheran Ministries is committed to high standards of safety during the COVID-19 pandemic. This document should be read thoroughly to understand the protocols that GLLM has in place as well as expectations for guests renting retreat spaces. For more information, please call our office at 320-796-2181.

Prior to Arrival

GLLM will:

- Clean and disinfect your retreat space. We will follow all CDC guidelines to do, but cannot guarantee that spaces are virus free.
- Provide guests with expectations and guidelines for renting a retreat space through GLLM.

Guests will:

- Review and sign all related documents and waivers for your upcoming stay.
- Adhere to all guidance from the state of MN. **At this time, groups must be 15 or less. Social distancing between households must be maintained.**
- Monitor the health of all planned guests.
 - Have any guests experienced symptoms of COVID-19 in the past 14 days? This can include fever, cough, shortness of breath, chills, headache, muscle pain, sore throat, or loss of taste or smell. If so, they should stay home.
 - Have any guests had known exposure to the COVID-19 virus in the past 14 days? If so, they should stay home.
 - If any guests fall into the category of vulnerable to COVID-19, they should not come.
 -
- **NEW** - Some of our guests may be fully vaccinated. If you are 2 weeks past your final vaccine shot, there is new CDC guidance that may apply to you and your rental group. GLLM asks that you use our spaces with honesty and integrity when making decisions about how to gather with your group.

If you've been fully vaccinated (two doses in a two-dose series or one dose in a one-dose series):

- You can gather indoors with smaller groups of fully vaccinated people without wearing a mask. Avoid larger gatherings.
- You can gather indoors with unvaccinated people from **one** other household (for example, visiting with relatives who all live together) without masks, unless any of those people or anyone they live with has an increased risk for severe illness from COVID-19.

It is still important to:

- Continue to wear a mask that fits well and stay at least 6 feet away from other people whenever you are:
 - In public.
 - **Visiting with unvaccinated people from multiple households.**
- Wash your hands often.

During your Stay

GLLM will:

- Provide a safe experience for your group.
- Provide appropriate cleaning and disinfecting products for you to utilize during your stay.

Guests should:

- Maintain all recommended safe practices
 - Wash hands regularly
 - Maintain social distancing between households
 - Wear masks as recommended by your current vaccine status (see above guidance)
 - Maintain guest numbers of **15 or less**
